# THE NLG EDTECH SUMMIT

# How is regional level activity linked to the country level?

At the regional level there is 1) a working group; 2) an advocacy task force; 3) a comms group (email only – they do not meet in person).

**The regional level working group leads the initiative.**

Within this group there are **technical focal points** for each pillar.

These technical focal points **cascade NLG information** to and collect NLG information from coordination mechanisms in NLG countries.

**Coordination mechanisms connect with their members** in country.

[There is also a newly formed NLG Tech Task Force, led by Nethope, which operates virtually.]

# How you can use NLG at country level

1. can be used as an **umbrella to convene actors**, support the programme, liaise with donors, plan and undertake joint advocacy
2. the **logo can be used** to highlight NLG programmes and related work (reports, research)
3. there is **no obligation** to refer to NLG if not useful

## 2. What to expect from No Lost Generation in 2017

# No Lost Generation targets for 2017

## PILLAR 1 EDUCATION

In 2017 we will ensure that over 1.3m children are enrolled in formal or non-formal education in 3RP countries and reach a further 1.3m children inside Syria with non-formal education; working towards the end goal of getting all children affected by the crisis in school.

## PILLAR 2 CHILD PROTECTION

In 2017 we will reach over 100,000 boys and girls with specialized child protection services; and over 1m children with structured, sustained child protection or psychosocial support programmes.

## PILLAR 3 ADOLESCENTS & YOUTH

In 2017 we will increase the volume and quality of programming for young people, reaching over half a million with positive engagement opportunities by the end of the year.
